Amtelco Secure Messages (ASM) Contact Web

Major/minor version: **7.0**

Revision History

Revision: **7.0.9281.01**

Status: **General Release** [11/19/2025]

Changes: Changed the contact filtering to work in the same way as the apps.
Added scroll bars to the compose, reply and forward modals.
Corrected a misspelling when attempting to delete a Role Message.
Changed the display of the contact list to be the same as the apps (showing contacts and roles).

Revision: **7.0.9144.03**

Status: Interim revision

Changes: Implemented Contact and Role filtering to the Contacts page.
Corrected an issue displaying the Send As correctly when composing a message.

Revision: **7.0.9144.02**

Status: Interim revision

Changes: Corrected issues with the new message indicator being offset by 1.
Corrected an issue displaying the reply action when a message is sent to the role and the contact.
Corrected an issue checking a circle, then deselecting a role is not unchecking the circle.
Changed the error message when setting the interval limit beyond the max value to include the max value allowed.
Changed the error message when opening an attachment before it completes.

Revision: **7.0.9144.01**

Status: **General Release** [04/30/2025]

Changes: Corrected an issue changing the Display Name.
Changed the system notifications to no longer display "Unknown" and to appear similar to the device message.
Corrected issues with the new message indicator being offset by 1.
Corrected an issue using the contact username instead of the contact name when logging in after the session expires.
Added a popup message when attempting to delete a Role message and changed the way delete works with the selected thread and/or checked threads.
Added the ability to switch between different licenses.
